# Media Screen II

outdoor roll-up banner stand

very functional outdoor product with attractive design  
fully portable double-sided retractable outdoor display  
easy to carry and takes a minute to set up  
endures wind, rain and snow  
very high quality to resist corrosion, UV-radiation and wear and tear by weather and wind  
can be used on most surfaces, such as snow, sand, grass and asphalt  
extra strong clamping profile holds most material and attaches to the top of the pole and does not allow the pole to protrude above the image  
spring-loaded pole is designed to flex in the wind  
the graphic flexes to approximately a 60 degree angle

the weighted, support feet mount easily to the base, providing stability on flat surfaces such as snow, grass, sand, pavement and concrete.

optional stakes are available for additional stabilization on soft surfaces such as snow and grass

quick installation in 4 easy steps
